DxSherpa Technologies offers a systemized, procedural business assessment and reporting of key performance indicators (KPIs) that can accurately communicate your current reality, opportunities, and the gaps in between IT landscape and Digital Transformation

We have the following assessments:

IT Service Management
Process Assessment

ServiceNow Platform
Assessment

License Optimization

Guiding Clients in their **Digital Transformation** Journey

After connecting with clients and prospects, we at DxSherpa have come up with a unique way of solutioning which focuses on three aspects

1

Improving Operational Efficiency

2

Engaging Workforce at All Levels

3

Empowering Customer Experience with Our Partner Platforms

Business Benefits of 360 degree Business assessment are as follows:

Evaluate progress against the roadmap, identify areas that are obstacles to success and establish a mechanism to measure improvement.

50% -75%

**reduction in unplanned work
for mission critical services**

10% -25%

increase in productivity

20% - 30%

**improvement in
Customer Satisfaction**

30% - 50%

reduced IT operational costs
